360° Solutions

Total site solutions that
are **seamless, scalable**
and **stress-free**.

360° Solutions

When you need a building solution that's fast, flexible and built to last, Ausco has you covered. From the moment you step inside, your space is ready to use.

We know that extra space often means more than just walls - it's the fixtures and fittings that make it work. That's why Ausco delivers complete turnkey solutions, including storage, furniture hire, access steps, white goods, power generation, covered walkways, facility management and more.

Whatever the requirement, Ausco provides everything in one place. We call these smart space solutions our 360° Solutions.

ECO Upgrade

To help construction companies meet RCLG requirements, we have developed a simple and cost-effective solution – the Ausco ECO Upgrade option.

This upgrade can be applied to both new and existing modular buildings and is available nationwide across Australia.

Specifications

- LED lighting with motion sensors
- Low VOC paint, adhesives and sealants
- Insulation
- Window blinds
- Door closers
- Water saving taps
- Water efficient shower heads
- Weather seals
- Dual flush toilets

RCLG Compliant and earns credit for ISC

Reduce costs, improve efficiency

Our ECO Upgrade options allow you to choose your level of compliance based on site and project requirements.

- ✓ Save energy, reduce heating and cooling bills
- ✓ Reduce indoor pollution, protecting the health of your staff
- ✓ Identify and eliminate energy wastage
- ✓ Improve environmental performance

Combine with sustainable power solutions for improved results

Furnished office buildings

Our Office Kits make setting up temporary workspaces simple and stress-free. Hire power solutions

 **AUSCO**
MODULAR

Portaloo

We offer two portable toilet options to ensure your team have functional amenities which perfectly integrate into your site.

Chemical toilet

Our fully self-contained standalone (chemical toilet) option is optimal for sites where sewerage connections are not available. Offered with servicing and pump out solutions for the hire period to ensure your facilities are maintained to the highest standard.

Specifications

- Dimensions: 1120 W x 1180 D x 2350 H
- Waste tank capacity: 400L
- Fresh water tank capacity: 105L

High rise toilet

Our sewer connected option (high rise toilet) is an innovative option and the ultimate solution designed to provide unparalleled convenience, especially for those who have direct sewer connections or septic systems.

Specifications

- Dimensions: 1120 W x 1180 D x 2250 H
- Waste tank capacity: 400L
- Fresh water tank capacity: 105L

Water tank

Check out our range of potable and non-potable water storage to help keep your site clean and functional throughout the project duration.

Potable water tank

- Fresh drinking water storage available as a sale item
- We supply and deliver to site, and assist you to arrange after sale services
- Water tank sizes available on request

For
sale

Non-potable water tank

- Non-potable water storage for hire to operate your amenities
- 2500L to 5000L tanks available
- Delivered on a skid
- Complete with pump
- Combine with an ECO Upgrade for maximum benefit

Ausco's water tanks are flexible and available in multiple sizes to suit your potable and non-potable storage needs. Perfect for projects where sustainability is an important initiative.

Waste storage

Conveniently tucked under the buildings, our waste tanks contain your footprint without taking additional space onsite.

Top benefits

- ✓ Available in 4000L or 6000L
- ✓ Waste management on greenfield or unserviced locations

Optional

- We offer weekly and fortnightly pump out services in select locations
- Flexibility around your site schedule to ensure no disruption
- Delivered and installed with the building, it is a simple way to manage your liquid waste

High level alarm

The high level alarm system is designed to provide a warning indication when your waste storage tank is either empty or full.

Top benefits

- ✓ Safe
- ✓ Reliable
- ✓ Audio/visual alerts
- ✓ UV protection
- ✓ Water supply cut off switch

Water and waste solutions

Dangerous Goods Container

Ausco's 10-foot Dangerous Goods Containers will provide you safe and compliant storage for your dangerous and hazardous goods on site.

Top benefits

- ✓ Comply with AS1940-2017 & Work Safe regulations
- ✓ Compact to reduce site footprint
- ✓ Removable floor for easy cleaning
- ✓ Built-in shelving for chemical storage
- x No need for multiple suppliers

Key features

- 10-foot steel container
- Compliant with AS1940-2017 & Work Safe regulations
- Forklift pockets for safe movement on the site
- Internal mesh shelving for chemical storage
- Removable floor for easy cleaning in the case of a spill
- Lockable, watertight and ventilated
- Transportable by tilt tray truck

Building Renter Protection (BRP)

With changing weather conditions and pressure on insurance premiums, our Building Renter Protection is a simple, effective way to ensure your project stays on track.

BRP benefits

- ✓ Low excess compared to building replacement/ insurance excess
- ✓ Peace of mind for incidents outside of your control
- ✓ Saves time requesting a certificate of currency
- ✓ Saves money as you are only paying during the hire period
- ✓ Avoid insurance claims: all BRP claims are managed in house
- ✓ No application process as all customers qualify
- ✓ More coverage including vandalism and glass
- ✓ Premiums will not rise with claims
- ✓ Suits volatile weather patterns

Inclusions

Building

- Vandalism
- Graffiti
- Fire
- Hail/storm
- Flooding
- Cyclone/tornado
- Earthquake
- Theft (incl. forced entry and attempted forced entry)

Ancillaries

- Fire
- Hail/storm
- Flooding
- Cyclone/tornado
- Earthquake

Exclusions

Building

- Misuse
- Abuse
- Excessive wear and tear
- Abandonment
- Willful misconduct
- Personal property/contents
- Theft or vandalism to ancillaries
- Collision damage during transport/relocation

Site safety and security

Steps and landings

When using a modular building, you'll need steps and landings for safe and easy access. We offer a variety of standard and custom-sized steps and landings to fit your specific site needs.

Our team is ready to help you find the safest and most efficient solution for your project. Simply get in touch with us to discuss your requirements.

Single FRP Step

Top benefits

- ✓ Easily installed
- ✓ Adjustable to site conditions
- ✓ Maintenance free
- ✓ Long and short versions
- x NO more crates as a step
- x NO more mud in the site buildings

*Please note steps and landings may vary from region to region.

SealSafe™

A safe, seamless system for weatherproofing modular buildings.

SealSafe™ uses a patented 'track and sail' system to weatherproof joined modular buildings without the need for working at height.

The sail is simply threaded through the track system and pulled through the tracks, creating a water tight, weather resistant membrane that exhibits the same characteristics of traditional roofing.

Top benefits

Safer

- ✓ Eliminates accessing the roof to install buildings
- ✓ No elevated work platforms
- ✓ Significantly fewer health and safety compliance obligations

Faster

- ✓ Installation time significantly reduced
- ✓ Less permits and site inductions
- ✓ Less overall time on your site

Access and safety

Coverflex

Coverflex Modular Walkways

Coverflex modular covered walkways are the perfect solution to providing instant protection outside and in between your buildings on site. Ideal for construction sites and a great alternative to custom-built decking and landings. Modular handrails are available for additional safety and fall protection requirements.

Speed

Coverflex modules can be delivered to site the same time as your buildings

Safety

Non-slip covering increases grip, reducing the risk of injury

Economical

Pre-built modules are cost effective on short-term projects and result in less waste on site

Flexibility

Modules can be arranged in a number of ways giving flexibility for your site requirements

Relocatable

Coverflex modules can move with your buildings, wherever you need

Scan to watch the virtual walkthrough

Site safety cameras

Keep your site safe with our range of solar powered, off-grid security camera solutions. Featuring high quality 4K recording, motion detection and app connectivity, you can keep an area secure even when nobody is onsite.

Top benefits

- ✓ 24/7 monitoring of your site with HD cameras for every application
- ✓ Hireable for the length of the project
- ✓ Power by solar panels and no need for internet connection
- ✓ Motion detection app-based monitoring system with push notifications
- ✓ Never miss a moment with time lapse, live viewing and infrared for night time monitoring
- ✓ Get all your site requirements with one supplier
- Ausco

Temporary fencing

Our temporary fencing solutions take the hassle out of your site setup, delivered with your buildings to ensure immediate safety and security no matter where you're located.

Get in touch with a member of our team to discuss how our temporary fencing solutions can help your project.

Talk to our team about bracing, stays and hand rails.

Building tie downs

To ensure your building is safely secured to the ground, we offer a range of engineered cyclonic tie downs from 1.6 to 3 tonne, ideal for when you cannot penetrate the ground.

Check your wind region to identify whether security is needed for your buildings.

Don't get caught out! Add cyclonic blocks to your site for peace of mind in all weather situations.

Facility management

We offer a range of facility management services to keep your buildings clean and functional. Whether you require commercial cleaning of your buildings, inspections (test and tag) of electrical equipment or fire system servicing to ensure regulatory compliance, Ausco has you covered.

Commercial cleaning

- Regular and periodical cleaning of your buildings, maintaining cleanliness and longevity
- Management of building waste including emptying bins and proper disposal
- Auditing of your building's conditions to provide you with information on the state of your site

Test and tag

- Inspections of your electrical equipment to ensure they are safe and serviceable
- Scheduled inspections to work around your site or project requirements

Fire system servicing

- Inspection and testing of extinguishers, smoke detectors, emergency lighting and other fire safety equipment
- Comprehensive service to ensure your fire protection equipment is functional and compliant with fire safety legislation

Effortless delivery and installation

One supplier

One accountability, singular touchpoint.

Knowledge

Ausco's knowledge of the buildings and a team working together (fast, flexible, reliable). We have been doing it for 60 years.

Coordination

We manage the whole process including design and layout, trucks, cranes, subcontractors, and safety requirements = seamless project lifecycle delivery.

Avoid damages

If Ausco manages the work then customers don't get charged for any damages from subcontractors. The risk is ours.

Visible

We are with you. You will have the same construction supervisor from pre-planning to onsite.

Premium service

When we are finished set up, you walk in to start the job.
