

Safe, seamless system for weatherproofing modular buildings

SealSafe™ uses a patented 'track and sail' system to weatherproof joined modular buildings without the need for working at height.

The 'sail' is simply threaded through the track system and 'pulled' through the tracks, creating a water tight, weather resistant membrane that exhibits the same characteristics of traditional roofing.

Top Benefits

Safer

- > Eliminates accessing the roof to install buildings
- > No elevated work platforms
- > Significantly fewer health and safety compliance obligations

Faster

- > Installation time significantly reduced
- > Less permits and site inductions
- > Less overall time on your site
