

## Toowoomba Hospital

 **CLIENT**  
John Holland

 **LOCATION**  
Toowoomba, QLD

 **NUMBER OF MODULES**  
22

 **INSTALLATION**  
5 days

John Holland has partnered with the Queensland Government to deliver essential health infrastructure projects, including the \$1.3 billion Toowoomba Hospital to cater to the growing population in the Darling Downs region.

Ausco's local Brisbane team provided a comprehensive temporary site setup, including offices, lunchrooms, induction area, spaces for subcontractors, a fully furnished First Aid room, Coverflex modular walkways and appropriate amenities. Services also encompassed waste tanks with scheduled pump-out service, a generator, delivery, installation, and eventual site demobilisation, enforcing Ausco's complete site solution capabilities for building and construction projects.

Several factors made Ausco Modular the ideal partner for John Holland's successful project delivery: Ausco's proven experience and capability to accommodate large tier 1 builders, various safety, quality and environmental certifications, social sustainability framework, Reconciliation Action Plan (RAP), and local presence in South East Queensland.

- Building ECO Upgrades for RCLG compliance
