

Find out why more schools are switching to modular

Modular Construction

Innovative and functional permanent educational facilities

Working with us, you'll have complete control in creating a building that works for your school. Every job we work on – be it a short term hire of a simple classroom or construction of a major learning environment that will stand the test of time gets treated with the same high level of care, attention and detail. Best yet, most of the materials used in the construction of a modular building are the same as materials used in conventional construction, so your new modular facility will seamlessly blend with any existing buildings you already have on site.

- Single and multi-storey options
- Customised and highly configurable spaces
- Minimal disruption to your school
- Work with our expert architects or we can work with your architect
- Long lasting quality materials

It's not just the buildings we can provide. With our large range of optional add-on products and services, when you hire or buy a building from Ausco you'll be up and running in no time.

Temporary Classrooms

Temporary space when and where you need it

Our transportable classrooms have provided higher education to childcare with the additional space they require to keep pace with change. When temporary space is needed, you can confidently follow the lead of hundreds of schools throughout Australia and call Ausco Modular.

- Temporary facilities, permanent feel
- Enrolment fluctuations
- Emergency space
- Flexible layouts
- We manage transport, installation, removals and relocations

What our customers say

"Extremely happy with the whole process. From meeting with Adam in Kalgoorlie to working alongside Rod in Perth, Ausco achieved my vision and more."

**Goldfields Childcare Centre,
Rachel Barton, GCCC Director**

"It was really exceptional from an education perspective to see that it was exactly how we wanted it to be and that it had been really quite pain free, so that was just fantastic."

**Calvary Lutheran Primary School,
Angela Branford, Principal**

"It's light, it's open, the students and staff love working in it. It has that lovely sense you're in a space that you want to be in and it's a space that embraces you and adds colour and life to the learning."

**St Francis de Sales College,
Pam Ronin, Former Principal**

"I would recommend Ausco to schools who need high quality, purpose built additional classroom space that consider specific requirements such as ramps and disability accessible toilet facilities."

**Beenleigh Special School,
Nicole Finch, Principal**

For well over 50 years, Ausco Modular has proudly served the needs of the education sector. Changing demographics, renovations or emergencies require swift responses. Modular space can answer the call quickly and effectively and Ausco Modular is the best in the business. Our team has the experience, expertise, range of products and services you can rely upon when making critical decisions about your learning environment.
