LSR 10

Always complete & follow the High-Risk Work Permit when required.

RISK

Ausco Modular has identified that there are a number of high-consequence / low probability tasks that could result in a fatality or permanent injury if not managed well.

WHERE THIS RISK MAY APPLY TO YOU:

- > If you do work that involves any of the following;
 - Work at Height
 - Confined Space work
 - Electrical work
 - Pressurised work
 - Excavation work
 - Hot Work
 - Penetration of Surface work
 - Working near electrical conductors
- > Unauthorised work by a contractor or service provider.

PERSONAL BEHAVIOURS

- > I can make sure I have a relevant high-risk work permit before starting a job.
- > I can ensure that contractors and/or service providers do not complete work without authority.
- > I can speak up if I see someone doing high-risk work without a relevant permit.
