

7

LSR 7

Always ensure buildings and contents are safe for transit.

RISK

We undertake a significant amount of movements of buildings and contents and failure to secure these correctly could pose significant risk to other road users.

WHERE THIS RISK MAY APPLY TO YOU:

- > When you are preparing buildings for transport with transit bracing;
- > When you are preparing contents for transport either within buildings or by themselves;
- > Using transport providers to move our buildings and contents.

PERSONAL BEHAVIOURS

- > I can follow Ausco Modular instructions when preparing buildings for transport.
- > I can make sure transport providers follow our load restraint procedures.
- > I can install transit bracing & cladding by following Ausco Modular procedures before releasing buildings for transport.
- > I can inspect the security of contents before releasing buildings for transport.
